Elegance, Beauty & Soul

moonday[®]
yachts
since 1956

Throughout our history of building hand-crafted, top quality leisure boats we have always believed that a boat should have a distinctive and individual character, built to the highest standards and be exhilarating to own. Moonday has always stood for fine, elegant boats, designed and produced by skilled craftsmen. There is a special place in the hearts of owners for boats which conform to this ideal. These are boats which bring to life the freedom and enjoyment of open waters.

Every Moonday is very much a product of today's technology. In preparation for the production of the boats, the new factories at Tuzla, Istanbul, invested in a total refurbishment that included an all-new assembly line with new resources and new investment in the latest computer aided design ensuring that for Moonday, the future is every bit as bright as its illustrious past.

SINCE 1956, NOW IN 6500 m²

Boat Building,
Yacht Accessories
Ship Chandellery
Custom Boat Production for Different Brands
Inhouse Engineering / Design / Architecture
Model Production with Own CNC Machinery
Mould Production
Repair - Winterstorage
Pultrusion Production
Production of Various Composite Parts

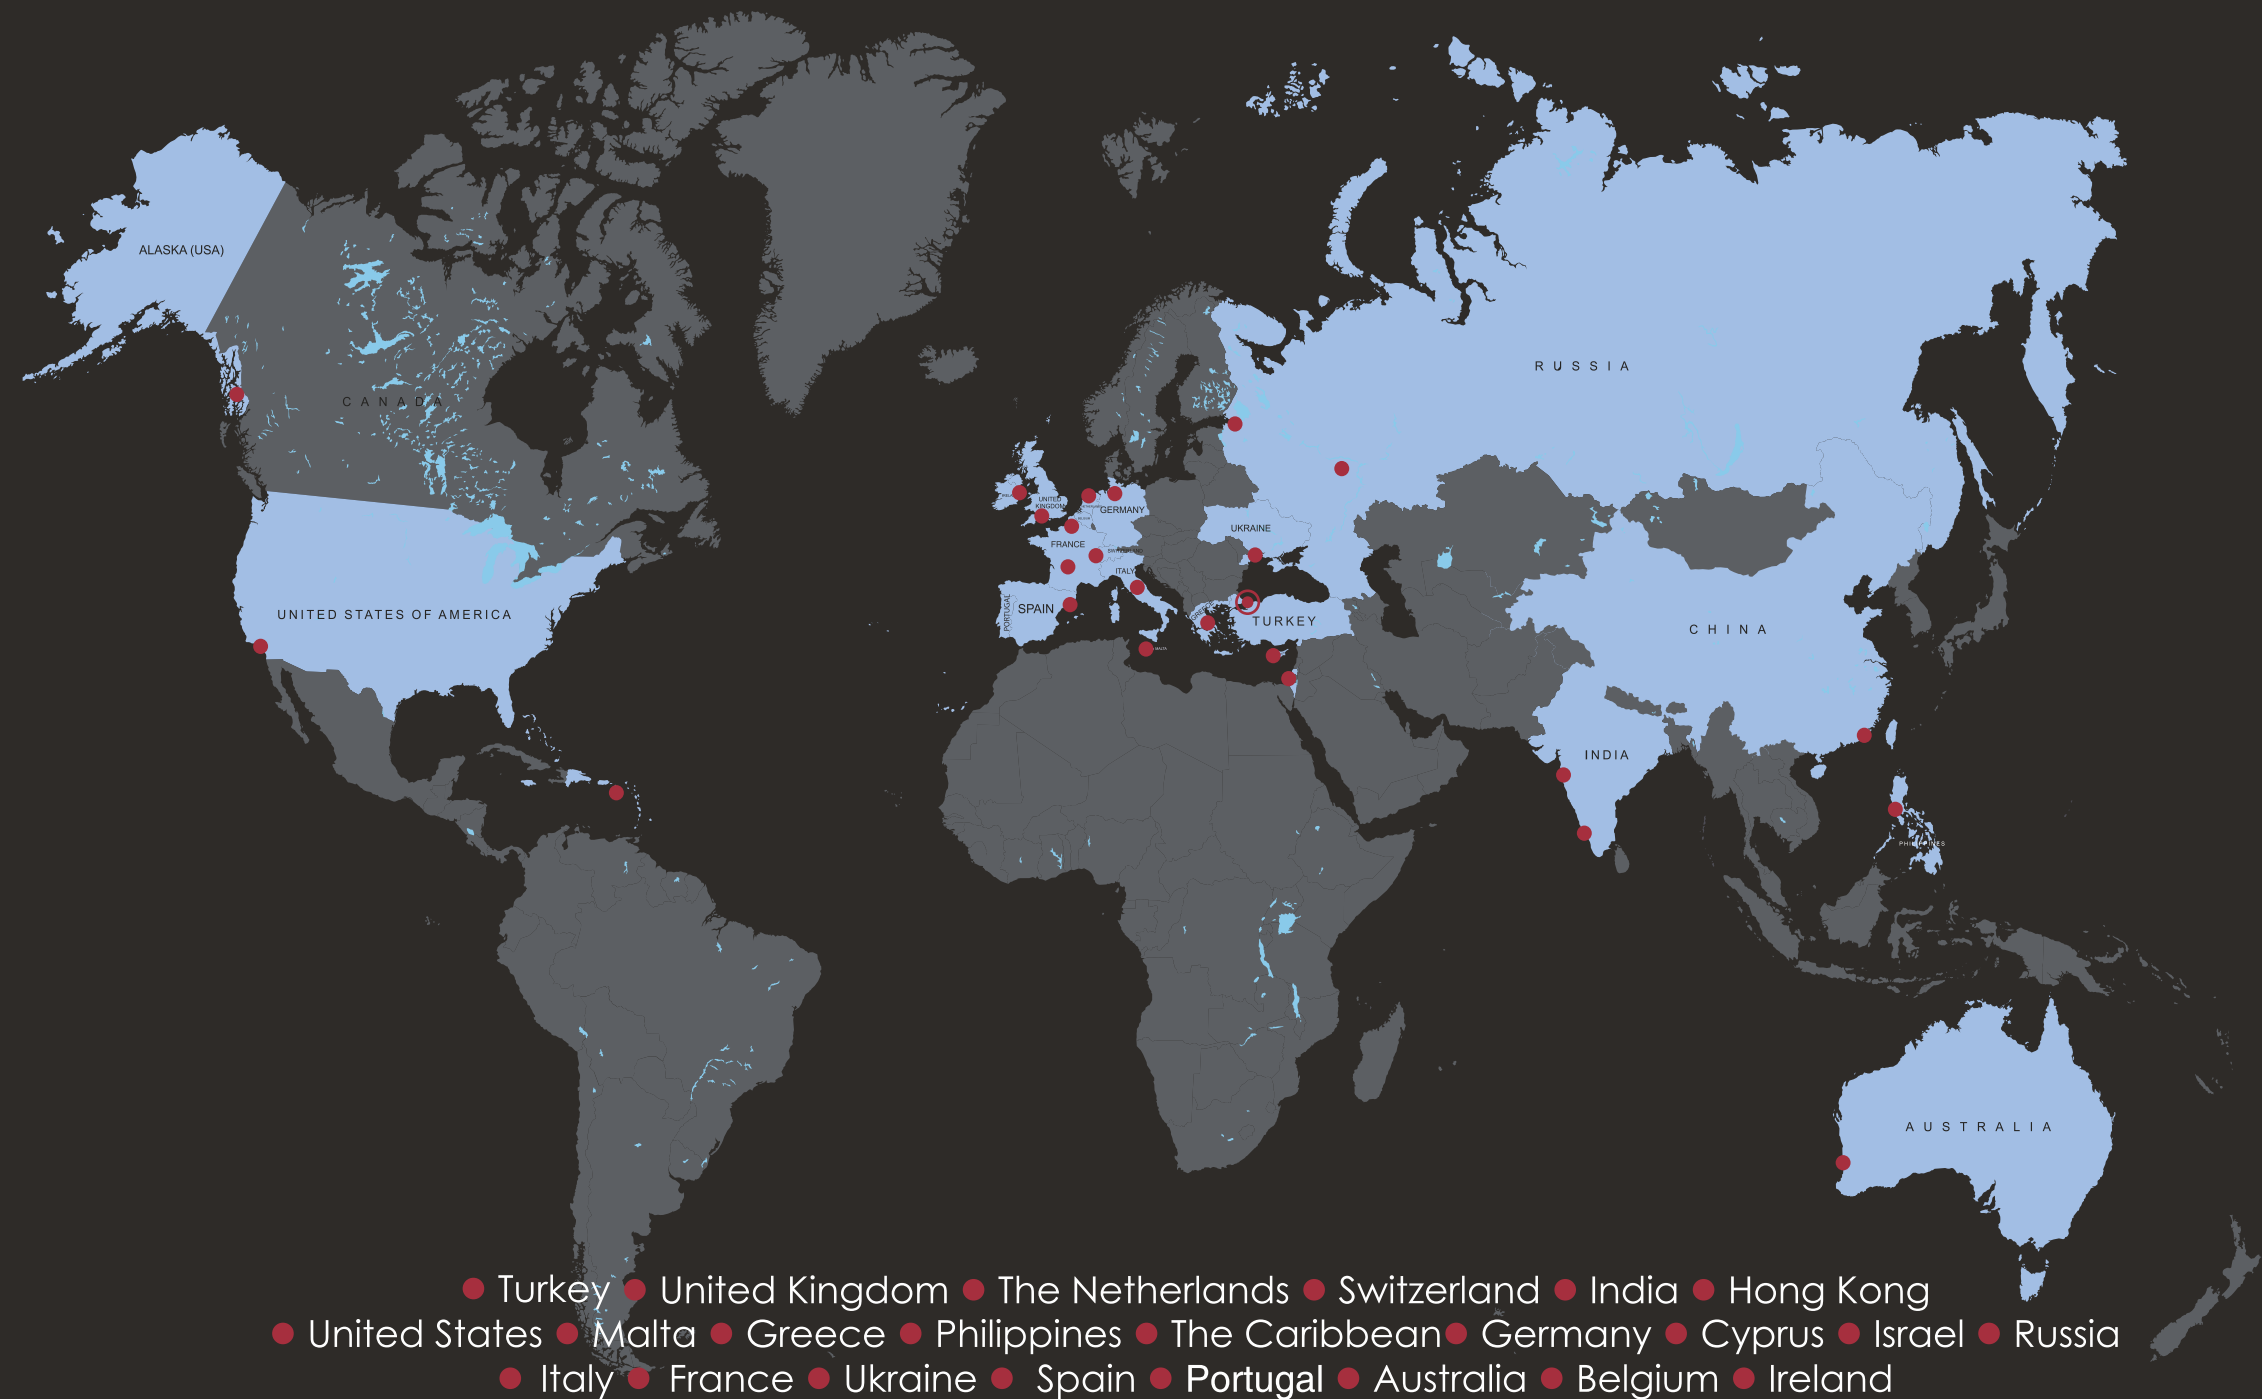

ALL WORK IS DONE UNDER ONE ROOF..

Carpentry - Furniture Workshop
Cushions - Tent Production
Metal / Stainless Steel / Aluminium Workshop
Electricity Cabeling Workshop
Piping Workshop
Glass Workshop
Paint Workshop
GRP Workshop
Cnc Cutting Workshop
Engine - Mechanics Workshop
Installation & Assembly Workshop

STANDARD ACCESSORIES :

Polyurethane Foam Stringers	We produce our boats with special Polyurethane Foam inside the stringers according to CE certification for buoyancy and safety.
Marine Grade Raw Materials	We only use Marine Grade raw materials that protects the boat from osmosis and color changes.
CS Versions (Classic Standard)	Classic Standard version with GRP interior and solid mahogany whalings and corners.
CL Versions (Classic Luxury) (Royal)	Classic Luxury and Royal version with solid mahogany and veneer interiors and solid mahogany whaling and corners.
Mahogany Wood Craftsmanship and Teak	We use solid mahogany wood in our classic series. The wood is natural air-dried. New generation flexible teak for the decks.
Varnish	We always use the best quality marine, UV resistant varnishes. First coats are two comp.PU varnished finished with classic varnishes.
Engine Details	Engine are always installed by the certified services and all coupling, shaft, filter, exhaust systems are included in the engine prices
Storage places under seats	Our boats have special storage places under the seats with water drainages.
Slip resistant seats,decks and floors	The decks, wetsurfaces and seats have non-slippery surfaces for safety.
Cushion sets (Vinyl Leather)	Cushion sets are produced in-house at our factory. Vinyl leather is standard. Other materials are on request.
Stainless Steel front and aft railings	All railings are marine grade 316L stainless steel and specially designed for safety on board.
Stainless steel U bolts	U-bolts are standard in our boats for towing and fixing. There are two bolts at the stern and one at the bow.
Direct overboard hull fittings	All boats have "Direct Overboard Water Outlets" so that the boat is not filled with water if even left alone.
Stainless steel cleats / anchor bollards	The bollards and cleats on the boats are all 316L as standard and the sizes depend on the size of the boat.
Stainless steel ladder	Stainless steel ladders come standard with our boats
Navigation lights	All boats are fitted with navigation lights.
Waterproof switches and fuses	Electrical cabelling and switches are marine grade with CE norms. All electrical items are fitted with CE certified fuses for safety.
Waterproof Plug or USB port	We supply all our boats with waterproof 12V plugs or USB ports that can be used for charging phones and other chargeable items.
Automatic bilge pump	All boats are equipped with automatic bilge pumps which can also be operated manually.
Rod holders	We supply two pieces of standard fish rod holders fixed at the stern of the sport series boats.
